COOKWARE CLEANER

With proper care, quality cookware can last a lifetime. Cook's Companion has developed this high-performance cookware cleaner to clean and maintain your valued cookware's appearance. This quality cleaner helps to remove residue, stains and discoloration from many cookware products. Cook's Companion works well on Enameled Cast Iron, Stainless Steel and Color Coated Aluminum. This cleaner is not recommended for most nonstick surfaces and we recommend testing a small area before use to make sure your cookware is compatible with this cleaner.

DIRECTIONS: Shake well. Using a soft clean cloth, apply enough cleaner to thinly cover the area to be cleaned. Work the cleaner into the surface to be cleaned and rinse immediately with warm soapy water to remove excess cleaner and residue. Repeat as needed.

CONTAINS: Water, Alumina, Citrus Distillate, Nonionic Detergent, Isothiazolinone
