

CARING FOR YOUR COOKWARE

- Always preheat your cookware and use low to medium high heat when cooking food. This helps with the life of the non-stick ceramic surface. Preheating requires oil, water or food to be in the pan. Heating without oil, water or food may cause damage to the pan or nonstick coating.
- This cookware is dishwasher safe on the top rack, hand washing is recommended and will prolong the cookware's beauty and nonstick surface.
- Allow your cookware to cool before submerging into water.
- Do not use abrasive or harsh cleaners.
- Never use metal utensils on any nonstick surface. It is recommended that you use tools made of nylon, plastic, wood or melamine.
- Do not scratch the non-stick ceramic surface or cut directly on your cookware.
- Always use extreme caution when handling hot cookware and keep out of reach of children at all times.
- The cookware is oven safe up to 450°F. The lid (if included) is oven safe up to 400°F.
- The cookware is compatible with induction, ceramic, electric (including glass), radiant coil and gas stovetops.
- Do not use the cookware in a microwave.
- Do not let handles of cookware extend over a hot burner. Doing so may cause the handle to become hot or cause damage. Always use oven mitts or potholders when handling hot cookware.
