CARE & USE

9PC SET

9PC SET

Dear Consumer,
Congratulations on the purchase of your new high quality, easy to use, all-natural titanium infused ceramic coated cookware set. With the proper use and care, this cookware should last you many years.
Please take a moment to read the Care and Use instructions that follow. Should you have any questions or concerns, please feel free to contact our Consumer Care Department, reachable at ToddEnglish@hhgllc.com

Pre Use:

- Wash cookware and tools in warm soapy water with a soft cloth.

When it's time to cook:

- Do not preheat on high setting. This cookware's surface and coating heats up very quickly and its aluminum base provides for quick and even heat conduction.
- Do not allow pan to boil dry.
- For induction ready cookware only: When cooking with an induction cooktop, please select the induction element with a diameter that matches the diameter of the bottom of the pan.

- For more effective cooking results, season the pan with cooking/vegetable oil before use.
- The cookware is oven safe up to 450°F degrees (without lid), 400°F degrees with lid.

Stainless Steel Wire Stand:

- Three stainless steel stands (one for each pot) with two handles for easy carrying. Ideal for table serving.

Cleaning:

- Make sure to clean your pan diligently after use. Food particles that remain on the pan's surface can congeal and become harder to remove after continued use.
- After cooking, please allow pan to cool slightly before placing under water. Immediate washing can corrode the pan's nonstick surface/quality.
- If your cookware has a polished or metallic exterior, it is recommended that you clean it with a soft, nonabrasive cloth or sponge in order to prevent scratches on the exterior.
- While this cookware set is dishwasher safe, hand washing is recommended. If you do choose to place your cookware in the dishwasher, make sure to use an alkaline-based detergent.

General Care:

- Do not use any abrasive substance or chemical/mineral cleaners on your cookware.
- Avoid using harsh and rough materials on your cookware (for both general use and cleaning)
- Make sure the pans are clean and dry before storing.

With proper use and care, your new cookware set should give you many great cooking experiences.

Sincerely,
