### GETTING STARTED

- ◆ Before using, remove any labels and wash and dry each item in accordance with the care and use instructions.
- ◆ For best results, season your stick resistant coating by lightly rubbing cooking oil onto the nonstick surface. On low heat, warm the cookware on the cook top, let cool and wash again. You are now ready to enjoy your Cook's Companion® cookware.

### CARE & USE

- ◆ Always preheat your cookware and use low to medium high heat when cooking food. This helps preserve the nutrients in food and the nonstick surface. Preheating requires oil, water or food to be in the pan. Heating without oil, water or food may cause damage to the pan or the stick resistant coating.
- ◆ Cook's Companion® uses PFOA/PTFE Free Ditanium™ stick resistant coating, making it easy to clean. While Cook's Companion® is dishwasher safe, hand washing is recommended and will prolong the cookware's beauty.
- ◆ Allow your cookware to cool before submerging into water.
- ◆ Do not use abrasive or harsh cleaners.
- ◆ Never use metal utensils on any stick resistant surface. It is recommended that you use tools made of nylon, plastic, wood or melamine.
- ◆ Do not scratch the surface or cut directly on your cookware.
- ◆ Always use extreme caution when handling hot cookware and keep out of reach of children at all times.
- ◆ Cook's Companion® is oven safe, with exception of the glass lids, to 500° F. The glass lids are oven safe to 350°F.
- ◆ Cook's Companion® cookware is compatible with induction, ceramic, electric (including glass cook tops), radiant coil and gas stovetops.
- ◆ Do not let handles extend over a hot burner. Doing so may cause the handle to become hot or cause damage. Always use oven mitts or potholders when handling any part of your cookware set.
- ◆ Do not use in a microwave.
