

STEM CELL MOISTURIZER

PRODUCT BENEFITS

- ✓ Increases cellular rejuvenation
- ✓ Deep skin hydration
- ✓ Fights photodamage
- ✓ Contains liposome encapsulated fruit stem cells to provide hydration and reduce UV stress

DESCRIPTION

A rich, nourishing moisturizer containing liposome-encapsulated fruit stem cells, natural moisturizing agents and lactic acid to help fight the signs of aging.

SKIN TYPE

- Normal
- Dry
- Oily
- Sensitive
- Combination
- Acne-Prone
- Photodamaged

SKIN CONCERN

- Acne
- Aging
- Daily Care
- Preventative
- Post Treatment
- Sensitivity
- Sun Damage

USAGE

After cleansing, apply a small amount to entire face and neck. Follow with sun protection products (SPF) and/or other desired products. May be used twice daily.

INGREDIENTS

Water, Propanediol, Sodium PCA, Caprylic/Capric Triglyceride, Sucrose Cocoate, Glycerin, Cetyl Alcohol, Glyceryl Stearate, 1,2 Hexanediol, Methyl Gluceth-20, Cetearyl Alcohol, Butyrospermum Parkii (Shea) Butter, Dimethicone, PEG-75 Stearate, Ceteth-20, Steareth-20, Carrageenan, Myristyl Myristate, Sodium Carboxymethyl Beta-Glucan, Phenoxyethanol, Lactic Acid, Isomalt, Lysolecithin, Sclerotium Gum, Cetearyl Oliviate, Sorbitan Oliviate, Oenothera Biennis (Evening Primrose) Oil, Squalane, Simmondsia Chinensis (Jojoba) Seed Oil, Tocopheryl Acetate, Dipotassium Glycyrrhizate, Fragrance, Malus Domestica Fruit Cell Culture Extract, Xanthan Gum, Pullulan, Hydrolyzed Oat Protein, Panthenol, Potassium Sorbate, Phytic Acid, Yeast Extract, Lecithin, Vitis Vinifera (Grape) Fruit Cell Extract, Sodium Benzoate

KEY INGREDIENTS

Shea Butter

Protects and moisturizes the skin. It is beneficial in a treatment cream as it offers excellent skin penetration and is highly emollient.

Yeast Extract

A mix of amino acids, sugars and proteins that act as super hydrators. They also appear to have wound healing properties and are believed to increase the production of collagen.

Phytic Acid

A natural plant extract found in fruit and cereal seeds. Used as a skin brightening agent because of its melanin formation blocking abilities. Also known as an antioxidant. All stem cells, independently of their origin (plant, animal or human) contain specific epigenetic factors whose function is to maintain the self-renewal capacity of stem cells. Malus Domestica has been shown by various invitro experiments. Other studies demonstrated its age delaying and anti-wrinkle effects.

Vitis Vinifera (Grape) Fruit Cell Extract

Derived from a redflesh grape tolerant to strong UV radiation, is known to help fight free radical damage and protect skin against UV stress. Also increases skin's tolerance to UV light.

Malus Domestica Fruit Cell Culture Extract (Apple Stem Cells)

Helps fight the signs of chronological aging. This rejuvenating ingredient helps improve the appearance of fine lines and wrinkles.

Lactic Acid

An alpha hydroxy acid derived from sour milk, lactic acid has been used for centuries to relieve dry, aged skin. Lactic acid has better water intake than glycerin and studies report that lactic acid has an ability to increase the water-holding capacity of the corneum layer as well as improve the elasticity of the skin.
