### OPERATION

The earbuds are already synced and paired to each other by default. For first use, follow the operation steps listed below:

1. Both earbuds automatically power on and pair when removed from charging case. During pairing, red and blue lights flash on both earbuds; once paired, only the designated main earbuds flashes red and blue lights.

2. Open Phone Bluetooth, or device and search for "Activa Wireless Earbuds", then click to pair with earbuds. You will hear "Connected" once paired successfully. Once paired, the earbuds will automatically connect back to the Bluetooth device last used. If you are unable to connect to your phone or device, please clear all listed Bluetooth connection names in your phone first, then search for "Activa Wireless Earbuds" and pair manually.

*\* When powered on without connection, the buds will automatically power off after 5 minutes.*

*\* The left and right earphones can be used as separate mono earphones when used alone.*

#### **True Wireless Stereo Headset Pairing:**

Pick up the Wireless Pods from the charging case, both pods will automatically turn on and enter the left and right synchronized ear pairing mode.

#### **Tips:**

Be sure to disconnect both ear buds from your Bluetooth device prior to attempting reconnection via the steps listed below.

\* If pairing fails, place both earbuds in the charging case and then try again.

\* If there is no sound after the main and auxiliary ears are connected, place both earbuds back into the charging case and try again. The pods should automatically connect. If not, connect to the device manually in your Bluetooth settings.

## **CHARGING**

### **1) Earbuds:**

When the battery is low, the earbuds will give a voice reminder. Open the charging case and place the earbuds in the case to charge. The red light will remain on while charging and switch off when charging is complete.

Note: While the earbuds charge, the charging case lights up blue and will switch off once the earbuds have fully charged.

### **2) Charging Case:**

When the charging case's power is low, the blue light of the charging case will flash, indicating that you need to charge the case. The light will switch to remaining fully on (and stop flashing) once fully charged.

### **2 Ways to Charge the Case:**

**A:** Use a Type-C USB charging cable to connect to the Type-C USB port of charging case.

**B:** Wireless charging function: The charging case comes with a wireless charging coil, and other wireless chargers can be used to charge the case. Place the charging case on the wireless charger for direct charging. It is recommended to use a dedicated wireless charging base to charge the case.

**Note: Fully charge the charging case prior to first use.**

### **Accessories List:**

- One pair of Activa Wireless Earbuds with Dynamic Speakers
- One Charging Case
- One Type C Charging Cable
- Two Pairs of Ear Caps (large/small)
