Other ways to play Monogamy®

Although twice around at each level is recommended, you can personalise Monogamy®, according to how you are both feeling. Here are some ideas for other ways to play – if you find any more, let us know!

Relighting the Fire
Build anticipation and rekindle passion by taking it slow. Agree to start by playing just the intimate (pink) level. You can decide between the two of you how many times you wish to play at this level.

Gradually move on to the passionate (purple) level – and when you both feel the time is right the whole game including the Steamy hot red! Agree in advance your strategy – you will be amazed at how restrictions increase the desire!

Fast Forward
Just go around each level once.

A Real Quickie
For when you are already in the mood and fancy a little quick and steamy sex – shuffle the fantasy cards, pick one out and act out the scenario.

However you choose to play Monogamy®, we hope you have great fun!

We would love to hear your feedback and hope you will visit us at www.monogamyonline.com with your comments.

Rules

Introduction
Monogamy® has been devised for two consenting adults who wish to have fun and enjoy an intimate liaison with each other. As the game progresses you will experience hilarious conversations and exciting invitations whilst learning more about each other’s minds and bodies and discovering what really lights your partner’s fire!

So dim the lights, switch off the phone and get ready to play the hottest game ever!

How to Play
Each player aims to go around the board six times becoming progressively more intimate – twice at the intimate pink level, twice at the passionate purple level and twice at the steamy red level.

Every time you pass “GO” you should place a coloured ring on your counter in the following order — pink, pink, purple, purple, red and red. This will help you remember which level you are on.

You must also pick up a Fantasy card every time you pass “GO”.

Fantasy Cards
You can only ever hold two Fantasy Cards, so you must discard one after you pass “GO” for the third time and each time thereafter. The winner is the first to complete six rounds, two pink, two purple and two red. He/she can choose which of their two remaining Fantasy Cards to play by reading the card to their partner — that’s when the fantasy becomes reality.

Start

Start by positioning your two empty counters on the “GO” square.

To decide who starts first, look longingly into each other’s eyes. The last one to blink throws first!

Place a pink ring on your counter to remind you that you are on the pink level and then roll the dice. Move the number shown on the dice and carry out the action represented by the picture on the square — these actions are explained later.

When you land on a Monogamy® square pick up the Monogamy® card corresponding to the level you are on. The person who lands on the square reads out and answers the question or carries out the action under their gender heading.

Intimate Pink Level — Listen, laugh and learn as you reveal more about you and your partner. The start to your affair…

Passionate Purple Level — More touching, stroking and saucy conversations entwined with exciting sensuous actions.

Steamy Red Level — Hot, hot ,hot. Steamy actions and scenarios to take you to the brink and leave you longing for the final fantasy.

Some of the Monogamy® questions have a “T” branded in gold on the heart. These are “Treats” — special actions that you carry out over the coming days and weeks to help keep that extra special feeling of closeness long after the game finishes.

If you land on a Plain Heart it is up to your imagination! You can use it to change the music, top up the drinks or just to cool down! The glass (drink) simply allows you to take a well-earned drink, whilst the Shoe (strip) instructs you to take an item of clothing off. This can be done either by yourself or your partner in any way you wish.

When landing on one of the remaining squares, you should carry out the activity dependent on the level at which you are playing – full details are shown in the table on the next page.
