PRODUCT OVERVIEW

STEPS FOR USAGE

1. Detach the bottom clear case of the device.
2. Rotate the inner tank counterclockwise and take it out.
3. Add the liquid you would like sprayed to tank. You can either use purified water or safe and high-quality alcohol (67-75%) to create a sanitizing solution. NOTE: Must be a LIQUID sanitizer, not gel.
4. It is recommended to fill the tank with Medic Therapeutics Organic Hand Sanitizer for quality sanitization.
5. Rotate the tank clockwise back into place until shut tight.
6. Re-install the bottom clear case again to the device.
7. Turn on the device.

ADDITIONAL INFORMATION FOR USE

1. Do not cover the Spray Port with hands or objects. Doing so will result in damage or blockage.
2. Be sure to insert the soaked cotton sponge stick.
3. Do not use warm or hot water in the tank.
4. For optimum spray volume, fill the tank to 90% capacity, not all the way.
5. For optimum performance and to prevent buildup of impurities in the cotton sponge stick, use only purified water and safe to use high-quality alcohol: 67-75%.

COTTON SPONGE STICK

1. Depending on water quality and extent of daily use, the life of the cotton sponge stick is up to 2 months.
2. When spray volume decreases or stops completely, replace cotton sponge stick.

TIPS AND TROUBLESHOOTING

1. Ensure cotton sponge stick has been soaked prior to use.
2. If the device is not turning on, make sure that the device is fully charged or that the cable is plugged in.
3. If the device does not emit any spray/mist during use, check the water level and add water if necessary. Also check the device's power status; if battery power is empty, then recharge.
