

FLICKERING TOUCH MASSAGE CANDLE

LELO

The Scented Candle that Melts into a Luscious Oil

Immerse yourself in the radiant glow of LELO's Flickering Touch Massage Candle. Made from all natural soy wax, Shea butter and apricot kernel oil, the lightly scented wax melts into an exquisite pool of luxurious massage oil. The silky formula is specially designed to nourish and moisturize your skin with natural vitamin E, while subtle fragrances excite your senses for the pleasures that lie ahead. With a burn-time of up to 36 hours and three seductive scents to choose from, there is sure to be a Flickering Touch Massage Candle to suit your every mood.

FEATURES	BENEFITS
Scintillating Massage Candles in 3 Ambiance-Enhancing Fragrances	Flickering Touch Massage Candles are available in 3 different scent combinations that boast the aromatherapy benefits of each; be it the aphrodisiacal qualities of Vanilla & Crème de Cacao, the stimulating properties of Black Pepper & Pomegranate, or the rejuvenation offered by Snow Pear & Cedarwood.
Exquisite Massage Oil	Flickering Touch Massage Candles consist of specially-formulated soy wax that, when lit, melts into oil that is perfectly textured to facilitate a relaxing massage, leaving skin soft and supple hours after application. Months in development, the signature formula retains the fragrance while serving as a superior massage oil for longer lasting relaxation.
All-Natural	Flickering Touch Massage Candles melt into pools of all-natural Shea butter and apricot kernel oil that absorbs directly into the skin, leaving no greasy residue that will clog pores.
Rich in Vitamins	Flickering Touch Massage Candles are naturally rich in vitamins A, E and F that are essential to maintaining healthy skin with benefits such as increased elasticity, decreased acne, and lesser prominence of scars or stretch marks.
Clean-Burning	Flickering Touch Massage Candles do not contain chemical additives such as paraffin, resulting in a clean burn that produces no petrol-carbon soot residue that can blacken walls and ceilings; soy wax also burns cooler than common waxes used in candles, meaning it can stay burning for up to 36 hours.
Beautifully-Designed	Flickering Touch Massage Candles are presented in holders made with stylish black glass with polished aluminum lids fitted with color-coordinated rings Making them attractive and unassuming additions to any table, counter, or drawer top.
Not Tested on Animals	LELO products and the materials used to make them are never tested on animals.
